

KWN→PF handoff v2 — feasible compact allocation, not a GP prediction

Fixture-conditioned v2 constraint ledger

Bucket	Q_B (mol)	C_B (mol m ⁻³)	Constraint
Total source	6.472257e-19	731.547	fixed source inventory
Fixed resolved β	5.162330e-19	583.488	fixture geometry; counted once
Matrix	1.296828e-19	146.578	inverse storage mapping
Frozen GP	1.309927e-21	1.48058	prescribed, non-predictive
β subgrid	0.000000e+00	0	frozen compact PSD

ledger relative residual = 1.49e-16; matrix inverse residual = 7.43e-16; resolved β is not re-emitted from KWN.
